DOES YOUR CHILD HAVE A DIAGNOSIS OF EPILEPSY WITH PARTIAL-ONSET SEIZURES?

The University of Kentucky along with Dr. Qutubuddin Khan are conducting a research study of an investigational medication for the treatment of Epilepsy.

- Is your child uncontrolled with ≥ 2 AEDs?
- Is your child ≥ 4 years to < 17 years of age?
- Is your child on a stable dose of one to three anti-epileptic drugs?

If this is the case with your child, he/she may be eligible to participate and would receive the following study related evaluations at no cost:

- Physical/Neurological Exams
- Laboratory Testing
- Behavioral Evaluations
- Study Medications
- Possible financial compensation if eligible and enrolled into the research study

If you would like more information and to see if you qualify, please call:
