Researchers with the University of Kentucky Department of Psychology are conducting a study on how people regulate emotions after experiencing acute pain.

You may be eligible to participate if you:
- Are 65 years old or older
- Are not in pain
- Do not have a history of seizures or cardiovascular disorders
- Do not take the following medications: Antidepressants, Beta-Blockers, TNF blockers, AD medications, or Pain medications

What will I be asked to do?
- Provide blood pressure and EKG data
- Put your hand in cold water
- Complete questionnaires and cognitive tasks

How much time will it take?
- 1.5 hours
- Only 1 session
- Participants will be paid $25 for their participation

Research Investigator for this study is Ian Boggero, M.S. For more information, please contact him at (859) 257-2207
