Tennis Players Needed for Research Study

Researchers at the University of Kentucky College of Health Sciences are conducting a study to evaluate the accuracy and consistency of a tool used to grade a player’s serve. We will videotape you performing a series of tennis serves. We will also evaluate several trunk performances measures. We are recruiting individuals that are recreational, high school, and college tennis players.

You may be able to participate if you:

- Are between the ages of 14-65 years
- Play recreational, high school, or college tennis

You may NOT be able to participate if you:

- Have a history of fracture or surgery within the past year
- Have a neurological disorder
- Currently under medical care or seeking medical care for a musculoskeletal condition that affects tennis play

If you are interested in participating in this study, please contact:
