Healthy Volunteers Needed for Research Study

Researchers at the University of Kentucky Department of Internal Medicine are conducting a clinical research study to examine the impact of hot and humid air upon lung function of healthy volunteers. Your participation will require up to three separate days to complete the study, and you will be compensated for your time.

You may be eligible for this study if you:

- are between 18 to 65 years of age;
- are in good health conditions;
- are not currently pregnant;
- are able to perform lung function testing;
- are fluent in the English language;
- have no lung or heart disease; and
- have no history of tobacco smoking.

Research Investigator for this study are M. Khosravi, MD and L.Y. Lee, PhD.
