If you currently have an African American child who is in first or second grade, they may be eligible to participate in a research study. The purpose of this study is to explore how children who speak in an African American dialect learn new words.

**What:** Your child will learn silly words so we can explore how they learn the sounds and meanings of new words.

**Where:** At your child’s after school program or at a location of your choice.

**When:** At a time approved by the afterschool staff or you.

**How Long:** Approximately 5 visits across 2 weeks for a total of 3 hours (about 30-45 minutes per visit).

**Thank you:** Your child will receive $10 after finishing this study.

If you are interested, please email the primary investigator, Heather I.
