

**Interested in Learning More  
about Your Brain?  
Join Our Brain Imaging Study!**

Researchers at the University of Kentucky are conducting a study to better understand how aging affects brain function and cognition, and to identify changes that may help predict future brain health. The study will take place at our state-of-the-art Magnetic Resonance Imaging (MRI) and Spectroscopy Center in Lexington, KY.

**Study Details:**

- Duration: 2 visits- each visit includes 1 hour in the MRI scanner and 1 hour of cognitive testing outside of the scanner
- Flexible scheduling at your convenience
- Financial compensation up to \$120

**You may be eligible to participate if you are:**

- between 65 – 85 years old
- right-handed
