

## Are You in Treatment For Opioid Use Disorder?

Researchers at the University of Kentucky invite you to participate in a research study to better understand what affects successful treatment for opioid use disorder.

The goal of the study is to learn about how psychological (stress, childhood trauma) and physiological (inflammation and heart rate variability) factors contribute to treatment engagement.

### You may be eligible to participate if you are:

- Between 18 and 65 years old
- In treatment for opioid use disorder
- Willing to answer questionnaires, have one blood draw, and an EKG (noninvasive test of the electrical activity of your heart)
